A History OF Mount Pleasant Cemetery

Mount Pleasant Cemetery was established in 1875 by a group of London businessmen wanting a nondenominational cemetery. The cemetery is still run today by a group of business people who form a Board of Directors who volunteer the time they serve on the Board. An annual meeting is held in the Spring of each year when all lot owners are invited to attend. The Chapel and Crematorium were built in 1971 to accommodate the changing needs of families.

The oldest sections of the cemetery are Sections B, C and F. Here you will find memorials to the Carlings (Sir John Carling, original member of Canada's first Cabinet); Dorothy McClary "a niece of John Adams and cousin of John Quincy, 2nd and 6th Presidents of the United States"; Simeon Morrill, first Mayor of London Town; Dr. William Saunders, first director of the Experimental Farms Branch, Department of Agriculture and one of the founders of Mt. Pleasant; Sam Peters, Mayor of Petersville; and McCormick family of McCormick Biscuits. Throughout the cemetery you will find other well known London names such as Silverwood, Eccles, H.B.Beal, Ivey, Dowler, Duffield, Hobbs and the Little family mausoleum to name a few.

The entry gates at the (formerly) Walker Street entrance were originally installed in 1904, then relocated to (formerly Mount Pleasant Avenue) Riverside Drive in 1927. The gate posts at the Oxford Street entrance were built and officially opened in 1959. The Cross of Sacrifice in the first Veterans Section was built in 1921.

Mount Pleasant Cemetery is also known for its beautiful assortment of trees including some rare species that are characteristic of the Carolinian Zone, e.g., cucumber tree, tulip tree, Osage orange and redbud. As you enter Mount Pleasant Cemetery from Riverside Drive you will be greeted by a magnificent Copper Beech tree. If you visit the cemetery in late April you will see two beautiful Magnolia trees in full bloom in front of the Chapel, not to mention the spectacular colours throughout the grounds in the fall. In the early 1980's Mount Pleasant took on the abandoned Oakland Cemetery was re-opened with new burial options.

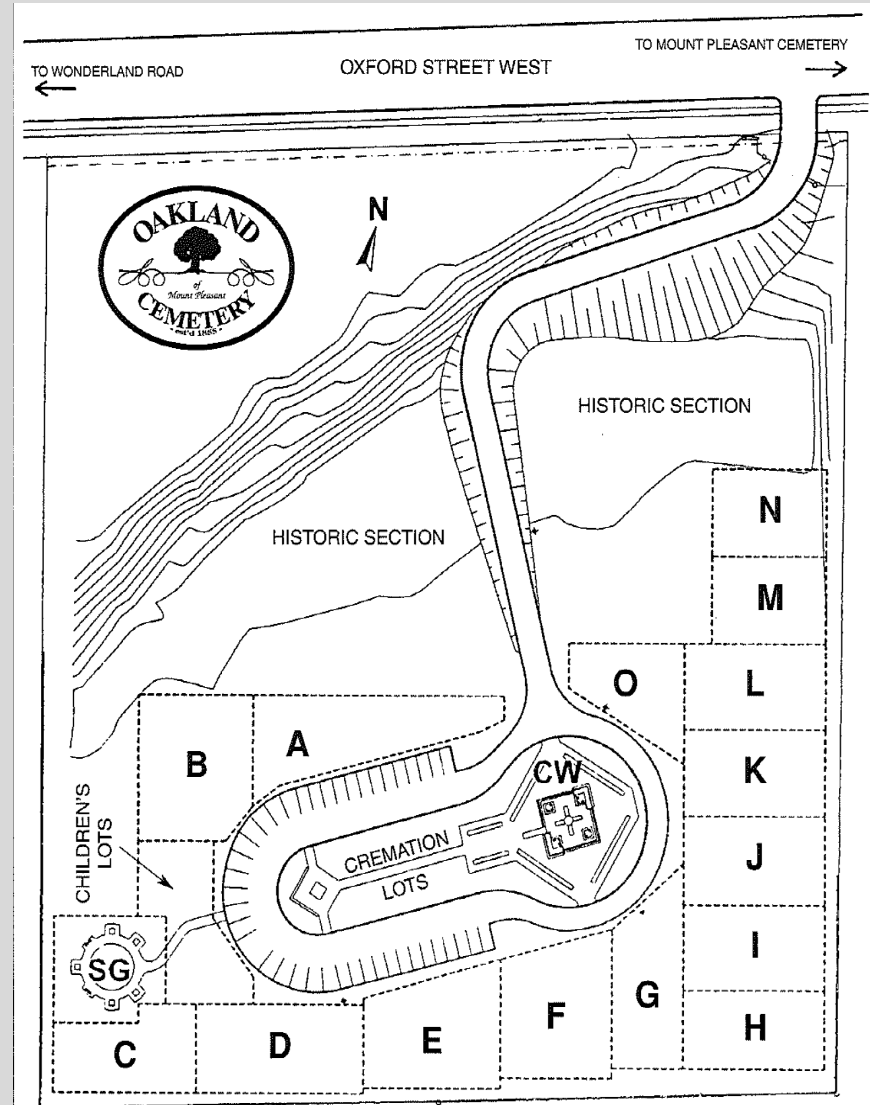

A History OF Oakland Cemetery

Oakland Cemetery was instituted as a Cemetery in 1855 by the United Presbyterian Church Congregation on the west side of the site. In 1864 the Wesleyan Methodist New Connections Church established its cemetery on the east side, and in 1882 the two groups amalgamated their holdings into Oakland Cemetery, also known as the Scotch Cemetery and Proudfoot Cemetery. The cemetery was left unattended and neglected for many years, except for the efforts of Reverend Elson who tried to clean the cemetery up in the early 1950's and Oakridge Secondary School students who undertook Project '75 with another clean up. Unfortunately their efforts were never continued. The Cemetery was conveyed by deed to Mount Pleasant Cemetery (London) Inc. in 1982 by Metropolitan United Church and the First St. Andrews United Church on the basis of an undertaking by Mount Pleasant to willingly guarantee "to rebuild and redesign said property maintaining the traditional dignity of a cemetery property to the high standard of Mount Pleasant Cemetery"...

Mount Pleasant has gradually cleared the area of brush and poison ivy. In 1994 Mount Pleasant undertook a major project of cutting into the side of the steep hill to permit a road access from Oxford Street West into the cemetery, restoration of the old monuments, landscaping and laying out of future burial sites and the building of a beautiful Columbarium for the inurnment of cremated remains. It should be noted that John Cram QC, who was a Director of Mount Pleasant for over 20 years, was a major driving force of the Oakland Cemetery restoration. Unfortunately, Mr. Cram passed away during the construction and restoration of the cemetery. Fittingly, he was the first to be laid to rest in the new Columbarium.

All historical burial and lot records were destroyed in a house fire many years ago. While no one knows the exact number of interments made, because of the practice of unmarked graves, the estimates range from 350-574 burials. The only records on file are the names recorded from monuments in Project '75 and a recording the Genealogical Society performed.
